These occupy the lower ground during the wise discretion. longer periods of recess, &c. No accident has The case was then formally adjourned until the Des. Founders between the first and second teams. drill has been very massisfactory. A broken succession of the less and incompetent instructors wearied the boys beyond measure, and they were only kept from openly resenting the t recome bungling by my frequent presume for summer west. Five of the Queen's College Gazette :-Cadets are now Volunteers. The formation of a Chinese Coast Chrps was, owing to the Plague and the resulting lee-way in class-work, out of the question. The entire question of recreation is beset with difficulties. The College grounds are fairly large, but sharply and strongly marked off the southern, central and northern areas respectively. Football and Cricket are possible only in the northern area, and then only at a costly expenditure of material. The Valley is distant (a serious matter when time is short and many of the boys poor; and no proper site can be uninterruptedly used. Bowrington Plantation will provide sites shortly. but the distance must always prove a drawback. Where one muster only organises and regularly attends sports it is very uphill work. The mere

developing standpoint." ANKUAL EXAMINATION -Two Courses were open to me in conducting the examination this year. Either to set easier papers and report that this course was adopted on account of the disorganis d year's work, or to adboro to the usual severe standard and claim levient judgment on the same plea. I perferred the latter course, in the interests of comparative statistics, whichwould become valueless with an uncertain standard. The total number examined was 587, of whom 520, or 88 per cent., passed: is a toss of of India. 5 per cent, on last year, though in 1921 we had only three-quarters of a school your; a result which cannot be viewed as despicable. The three section of the college are thus, represented

s kindly but useless from any sustaining and

Boys. smined, Passed centage. 1814. 1893 1894 7 1893 Upper 80'-ool ... 217 190 Lower School ... 201 Preparatory 163 155

From the above figures it is clear that t Lower School has suffered most, and this was resconably to he experted. As I have above in Armenia. The right honourable gentleman-aid stiendance during the Plague, while the ing that he declined to accept the truth of all rep ried, the Upper School was more steady in Preparatory, being usually examined on a half- the statements made nutil the same were veriyear's work, was not much affected by that fied, but if they were proved correct by the calamity. With the exception of arithmetic, Commission of Enquiry, the time had some for geography and history, the general percent entraged bumenity to raise a general shoul of figures obtained in collequial, reading, and Latin exceed last year's. I be fatally small percentages in some classes in a few subjects is the result of the presence of idly disposed or less mentally robust scholars who naturally found it more difficult to recover lest time. I think that the masters deserve credit for their steady application in the face of peculiarly depressing circumstances, while some of them are entitled to special commendation for results hardly in-

farior to the average year. The usual tables of the number of boys ex amined and passed in such subject and of percentages of passes are here subjusted.

(Here follow tables.) Remarks on Individual Subjects :-

Reading .- Some advance even on last year. An attempt to develop better modification of the voices in all classes including non-Chinese. would produce further improvement. Colleguisi .- Highly creditable. The conferen-

tion in the topmost classes ranging fr. over a variety of unforeseen topics surprised mie by the amount of intelligence displayed in the snawers and knowledge of general subjects out ide the class routing. Dictation -Fairly up to the average. Con-

siderable improvement in L.A. Composition - Excellent results. Considerable acquaintance with English idions is manifested. More drilling, however, is required, as good papers are often marred by careless mistakes. which the writers themselves should be capable of correcting.

Grammer makes but a poor show. I gather from the mistakes in parsing and analysis that maniers do not generally pursue the healthy custom of drawing attention to grammatical difficulties that coour in the course of a reading lesson. These imprompts studies in grammar are the most impressive and effective that can

be given. sections of Class Ili, there was too great avi- 8th pro ime for the purpose of cons dering the Hongkong..... dence of memory work, which probably accounts question of the import duties levied on cotton Victoria Peak for the poverty of the answers, which were large- goods in Indialy proproceed with the questions.

Arithmetic .- Generally very weak. Algebra.-Considerable improvement in the three sections of the First Class and excellent work in III. B. C.

Enclid. - Excellent in 11. A; still terribly of the Indian community. poor among unu-Chinesu. Geography .- Pour roughts in all but the five

sections of the first two classes. Shakespears. -- Admirable work on a paper perhaps stiffer than but year. Translations from and into Chinese .- Maintain their average good standard.

Latin-Taking into secount the shortness of knowledge of the use of case then boys in N. 2 SERIOUS CHARGE AGAINST M. STANSULOYP. Manila after two years' work. However, the failure of last year in this subject is simply atoned for by
